

The RRC NEBOSH International Technical Certificate in Oil and Gas Operational Safety By E-learning/Blended Learning

NEBOSH International General Technical Certificate in Oil and Gas Operational Safety

The NEBOSH International General Technical Certificate in Oil and Gas Operational Safety provides an excellent foundation in health and safety allowing those within the oil and gas industries to manage oil and gas operational risks effectively.

Who should study for the NEBOSH International General Technical Certificate in Oil and Gas Operational Safety

This Certificate has been designed for managers, supervisors, employee representatives and newly appointed health and safety advisers who have safety responsibilities in the oil and gas industry.

Entry Requirements

There are no barriers to entry to the NEBOSH International General Technical Certificate in Oil and Gas Operational Safety but it is strongly advised that candidates have an underpinning knowledge of safety issues which can be gained through studying the RRC Key2Safety or IOSH courses. Assessments are currently undertaken in English and a good standard of written English essential.

What You Will Study?

The syllabus itself is divided into 5 elements (approximately 40 hours of study).

IOG 1

- E 1 Health, safety and environmental management in context
- E 2 Hydrocarbon process safety 1
- E 3 Hydrocarbon process safety 2
- E 4 Fire protection and emergency response
- E 5 Logistics and transport operations

Assessment

The taught unit assessed by two hours written examination, that consists of ten "short answer" questions and one "long answer" question. All questions are compulsory and the candidate's scripts are marked by external examiners appointed by NEBOSH.
